The IFUGAO STATE UNIVERSITY (IFSU) QUALITY POLICY STATEMENT

The Ifugao State University is a higher education created and mandated by law to provide advanced instruction, steer innovative research and uphold participatory undertakings that generate graduates who are highly skilled professionals contributing to the development of the country.

Our university is committed to undertake the following:

- Produce highly competent, outstanding and globally disposed labor force in Education, Science and Technology, Agriculture and Management who are endowed with adept communication skills, critical and analytical capabilities;
- Generate and disseminate relevant knowledge, technology, systems and programs that lead to an improved quality, productivity, profitability and sustainability especially in Agriculture, Environment and the Industry;
- Fulfill the requirements of the Industry and the Labor sectors needing quality graduates and feasible and commercially ready technology.

Our quality management system is designed to ensure conformance to quality standards and requirements to sanctioning bodies.

We are also committed to comply with client as well as legal requirements and committed to continually improve the efficiency of our quality management system.

Together with the stakeholders, the top management of IFSU shall regularly review and continually improve the quality management system of the University.

SERAFIN L. NGOHAYON, PhD
President
