

## Bachelor of Arts in Political Science

### Program Description

Students in the discipline must exhibit the following competencies at the end of the undergraduate program. Graduates should be able to: compare, contrast and classify the major concepts in the discipline, recognize and define the distinctiveness of the discipline, its sub-fields, theories and methods, design and execute research inquiries using appropriate quantitative and qualitative methods guided by theories or conceptual frameworks, demonstrate written, visual and oral presentation skills to produce or present analytical reports, critique, judge and respond to current issues and problems based on a substantive understanding of the historical and contemporary developments in the national and global contexts, develop a predisposition towards ethical political involvement and practice in various forms and levels.

### Graduates of AB Political Science:

1. Demonstrate adequate professional competencies in political science both locally and internationally.
2. Display capabilities in doing research and extension activities
3. Exemplify cultural sensitivity with strong economic, social, moral, and aesthetic values
4. Demonstrate social responsibility and commitment to their roles in achieving sustainable development and promotion of the quality of life;
5. Develop potentials to seek innovation and creativity in the enhancement of professional excellence and ethical values;
6. Manage communities by educating and training leaders to help supply the necessary workforce needed in cultural, social and technical fields of endeavor for the development of the country;
7. Initiate linkages in communities as a means of expressing concern for others, love of freedom, equality and respect for human rights, justice and peace.

### Admission and retention:

Students must pass ALL their Political Science courses to remain in the program. Transferees from other schools or programs will only be admitted if their previous GPA is 2.5. or better for Political Science courses.

The Teaching methods used are classroom discussions, Laboratory and On-the-Job Trainings.
