

Bachelor of Science in Psychology

Program Description

This program aims to provide undergraduate students with a solid basic foundation on the major areas of psychology which may also be used as preparation for further studies and training in particular specializations of psychology or other professions such as education, law, and business management. It also provides preparation for further studies in medicine.

Graduates of BS Psychology:

1. Demonstrate adequate professional competencies in psychology both locally and internationally.
2. Display capabilities in doing research and extension activities
3. Exemplify cultural sensitivity with strong economic, social, moral, and aesthetic values
4. Demonstrate social responsibility and commitment to their roles in achieving sustainable development and promotion of the quality of life;
5. Develop potentials to seek innovation and creativity in the enhancement of professional excellence and ethical values;
6. Demonstrate mastery of major concepts, theoretical perspective, and empirical findings in psychology;
7. Apply critical and creative thinking, skeptical inquiry and scientific method to solve problems and answer questions related to behavior and mental processes;
