

The programs are tasked to focus on the following areas/components:

A. Curriculum and Instruction

1. Attune faculty and instruction through advanced education and exposures from related agencies and government institutions
2. Evaluate and develop curriculum and instructional materials

B. Research and Publication

1. Manage and publish researches on public policies, governance, tourism development and behavioral processes
2. Initiate public lectures, debates, conferences and other related creative activities

C. Extension Services and Linkages

1. Establish linkages with other agencies, organizations and institutions for resource-sharing and to support the goals of the College and the University
2. Prepare project proposals and other policy formulations aimed at developing communities
